

## Company Detail – DUNS #780763322

Year Established: 1986  
 Industry: Child Day Care Services  
 Revenue: \$ 515,415  
 # Employees: 25  
 Women Owned: No  
 Minority Owned: No  
 Chief Executive Officer Name:  
 Chief Executive Officer Title:

## Company Sustainability Overview

### Sustainability Pillar(s):

- Economic
- Environmental
- Social

Sustainability Pillars reflect the areas of sustainability the company is committed to.

### Sustainability Category(ies):

- Social Impact Companies

### Sustainability Assurance Rating:

A company's Assurance Rating is based on the level of assurance of their specific sustainability claim within the sustainability pillar(s) specific to that claim.

The ratings are from a low of 1 to a high of 5 as follows:

1. Listed as a Sustainable Business
2. Self Reported as Sustainable
3. Self-Reported to Certifier / Verifier as Sustainable
4. Sustainability Review by Certifier / Verifier
5. Sustainability Audit by Certifier / Verifier

**Dun & Bradstreet Company Credit Scores**

The company business commentary text from D&B here.

**Supplier Evaluation Risk Rating (SER):**

This rating predicts the likelihood that a supplier will cease operations or become inactive over the next 12 month period, based on the depth of predictive data attributes available on the business. The SER Rating scoring system uses statistical probabilities to classify public and private companies into a 1 – 9 risk rating, where 1 represents a low risk and 9 represents a high risk.

**Commercial Credit Raw Scores:**

The 101-670 Credit Scores predicts the likelihood of an account becoming severely delinquent within the next 12 months. In this 101-670 scale, there is a direct relation between the score and the level of risk. The marginal odds of being good doubles for each 40 point increase. For example, a business that scores a 240, on a marginal basis, is half as risky as a business that scores a 200.

**Commercial Credit Score National Percentage:**

This number identifies where this organization’s Commercial Credit Score falls relative to the score of other businesses. I.e. If the percentile showed is ‘10%’, this means that this organization’s score is the same or better than 10% of other businesses. The 1 to 100 Commercial Credit Score Percentile is strictly a rank ordering of the Commercial Credit Score universe. It indicates where a company ranks compared to businesses in the D&B information base on a 1 (highest risk) – 100 (lowest risk) scale.

**Viability Rating™**

The D&B Viability Rating assesses the probability that a company will no longer be in business, within the next 12 months, compared to all businesses in the same country within the Dun & Bradstreet database. Going out of business is defined as:

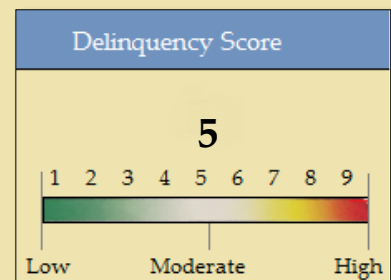

- Voluntary or involuntary close of business
- Becoming dormant or inactive
- Filing for bankruptcy/insolvency

The D&B Viability Rating is based on a scale of 1 -9, where 1 represents a low risk and 9 represents a high risk.

**US Delinquency Score:**

The D&B Delinquency score indicates the probability that a company will pay with a significant delay compared to the agreed terms. This probability is calculated using the valuable information provided by payment records, the only information that can quickly identify any variations in market risk. A company is rated as “Bad” in the D&B Delinquency Scorecard when less than 75% of its payments are settled in a satisfactory manner (by the due date or within 30 days) and at least 25% of its payment are settled over 90 days late compared to the agreed terms. The D&B Delinquency Raw Score is a granular 3-digit score ranging from 101 to 999, where 101 indicates companies with the highest probability of delayed payment and 999 those with the lowest probability.

**PAYDEX<sup>®</sup>**

The D&B PAYDEX is a unique, dollar weighted indicator of a business' payment performance based on the total number of payment experience in D&B's file. The D&B PAYDEX ranges from 1 to 100, with higher scores indicating better payment performance.
